

Third Day (June 1, Saturday)

Room 1 (Concord Ballroom AB)

AM

8:30~9:15

Requested Theme Session 10 Regenerative medicine in pediatric surgery

Moderators Tsugumichi Koshinaga (Nihon University)

Makoto Komura (Saitma Medical University)

OS10-1 Development study of the next-generation treatment for the trachea stenosis

Department of Pediatric Surgery, Saitma Medical University

Makoto Komura

OS10-2 A novel treatment of experimental injury of anal sphincters with dedifferentiated fat cells (DFAT)

Department of Pediatric Surgery, Nihon University School of Medicine

Takashi Hosokawa

OS10-3 A Tissue Engineering Approach for Prenatal Closure of Myelomeningocele

Surgery and Fetal Surgery, Children's Hospital of Philadelphia

Miho Watanabe

OS10-4 Preliminary Optimization of "In utero in situ cell culture" for Fetal Treatment of Myelomeningocele

Surgery and Fetal Surgery, Children's Hospital of Philadelphia

Miho Watanabe

OS10-5 Reconstruction of three dimensional liver tissue using the Bio-Rapid Prototyping system

Department of Pediatricsurgery, Faculty of Medical Science, Kyushu University

Yusuke Yanagi

9:15~10:25

Symposium 3 Timings and outcomes of vaginoplasty

Moderators Kenji Shimada (Osaka Medical Center and Research Institute for Maternal and Child Health)

Masayuki Kubota (Niigata University)

S3-1 Approach for well-planned reconstruction of vagina

Department of Surgery, Tokyo Metropolitan Children's Medical Center

Miki Toma

S3-2 Long-term therapeutic strategy for persistent cloaca

Dept. of Pediatric Surgery, Osaka Medical Center and Research Institute for Maternal and Child Health

Yuko Tazuke

S3-3 Evaluation of vaginal reconstruction

Department of Pediatric Surgery, Kagoshima University Graduate School of Medical and Dental Science

Tatsuru Kaji

S3-4 Vaginoplasty for cloacal malformations: Intestinal vaginoplasty in prepuberal period

Department of Pediatric Surgery, Pediatric Urology, Ibaraki Children's Hospital

Toshihiro Yanai

S3-5 Vaginoplasty in children with cloacal exstrophy

Miyagi Children's Hospital

Shintaro Amae

10:30~11:15

Educational Lecture 2

Moderator Kohei Hashizume (Dream Incubator Inc.)

New Trends of Life Science and Expectations for Pediatric Surgery

Professor Emeritus, The University of Tokyo
Makoto Asashima

11:15~12:00

Educational Lecture 3 Moderator Yasuhide Morikawa (International University of Health & Welfare)

The future technology in robotic surgery

School of Engineering, The University of Tokyo
Mamoru Mitsuishi

12:00~13:00

Luncheon Seminar 5

PM

13:00~14:50

International Panel Discussion 6: Collaboration in education among Asian countries

Moderators Devendra K Gupta (King George's Medical University, India)
Tomoaki Taguchi (Kyushu University)

IPD6-1 Collaboration in Pediatric Surgical training & education among Asian countries-Bangladesh

Dhaka Medical College, Bangladesh
Abdul Hanif (Tablu)

IPD6-2 Collaboration in Education of Pediatric Surgeons among Asian Countries - from Taiwan

National Taiwan University Hospital, Taiwan
Hong-Shiee Lai

IPD6-3 Formal and Informal Networking of Pediatric Surgeons in Asia, a Korean View Point

The Catholic University of Korea, South Korea
Myung-Duk Lee

IPD6-4 Internationalization: a blueprint for collaborative education in Asia

The University of Hong Kong, Queen Mary Hospital, Hong Kong
Paul TamIPD6-5 Challenges, Being a Paediatric Surgeon in Cambodia, and Contribution of the Foundation International
Development/Relief- JapanNational Pediatric Hospital, Phnom Penh, Cambodia
Vuthy Chhoeurn

IPD6-6 Collaboration in Education among Asian Countries – Singapore

KK Hospital for Women and Children, Singapore
Anette S Jacobsen

IPD6-7 Collaboration in Education of Pediatric Surgery in Asian Countries

~The Activity of Sukoyaka Grant for Maternal and Child Health~

Wakayama Medical University, School of Medicine, Japan
Akio Kubota

Special Remarks: Takao Okamoto (Foundation for International Development/Relief (FIDR)

Our Contributions to the Field of Pediatric Surgery in Cambodia

14:50~15:35

Requested Theme Session 11 Long-term prognosis of hydronephrosis

Moderator Hideo Nakai (Jichi Medical University)

Keynote Lecture 4 Review on the follow-up of congenital hydronephrosis

Osaka Medical Center and Research Institute for Maternal and Child Health
Kenji Shimada

OS11-1 Conservative management of high-grade congenital hydronephrosis

Department of Urology and Kidney Transplantation, Tokyo Metropolitan Children's Medical Center
Hiroyuki Satoh

OS11-2 Ureteropelvic junction obstruction: the experience at our institution

Department of Surgery, Faculty of Medicine, the University of Tokyo
Jun Fujishiro

OS11-3 Doppler sonography presenting hydronephrosis: a study of prognostic value

Department of Pediatric Surgery Hirosaki University School of Medicine
Michihiro Sugai

15:35~16:30

Panel Discussion 2 Multi-institutional joint research in Japan

Moderators Hiroshi Matsufuji (Kagoshima University)

Miyuki Kohno (Kanazawa Medical University)

PD2-1 Laparoscopically Assisted Anorectoplasty for High Imperforate Anus in Males: a Multicenter Study

Japanese Multicenter Study Group on Male High Imperforate anus
Tetsuya Ishimaru

PD2-2 Current Status of Variant Hirschsprung's Disease in Japan—nation wide multicenter study—

Department of Pediatric Surgery, Graduate School of Medical Science, Kyushu University
Tomoaki Taguchi

PD2-3 Recurrence rate after LPEC method for pediatric inguinal hernia in 8 institutes in Japan

Hernia Surgical Center, Okinawa Heart-Life Hospital
Hiroo Takehara

PD2-4 Nationwide biliary atresia registry in Japan

Department of Pediatric Surgery, Graduate School of Medicine, Tohoku University
Hideyuki Sasaki

Room 2 (Concord Ballroom C)

AM

8:30~10:15

International Panel Discussion 4: Pediatric oncology

Moderators Devendra K Gupta (King George's Medical University, India)

Hitoshi Ikeda (Dokkyo Medical University Koshigaya Hospital)

IPD4-1 Effects of endostatin and a new drug Terpestatin against human neuroblastoma xenograft and cell lines

Yonsei University College of Medicine, South Korea
Seung Hoon Choi

IPD4-2 Impact of surgery in high risk nephroblastoma

University of Tübingen, Germany
Jörg Fuchs

- IPD4-3 Diagnosis and Current treatment of Complex Vascular Anomalies
Cincinnati Children's Hospital Medical Center, University of Cincinnati College of Medicine, USA
Richard G. Azizkhan
- IPD4-4 Cisplatin plus pirarubicin based chemotherapy for hepatoblastoma: Experience and future in JPLT
Department of Pediatric Surgery, Hiroshima University Hospital, Japan
Eiso Hiyama
- IPD4-5 Surgery and urogenital outcomes in pelvic rhabdomyosarcomas / soft tissue sarcomas in boys
Department of Pediatric Surgery, Chiba University Graduate School of Medicine, Japan
Tomoro Hishiki

10:15~12:00

International Panel Discussion 5: Pediatric trauma

Moderators J.Boix Ochoa (Global Consensus in Pediatrics, Spain)
Kosaku Maeda (Jichi Medical University)

- IPD5-1 Accident Prevention in Childhood
Medical University of Graz, Austria
Michael E. Höllwarth
- IPD5-2 Laparoscopy and Thoracoscopy in the Management of Pediatric Trauma
Children's Mercy Hospitals and Clinics, USA
George W. Holcomb, III
- IPD5-3 Surgical treatment of blunt pancreatic trauma in children
Division of Pediatric Surgery, Jichi Medical University, Japan
Kosaku Maeda
- IPD5-4 Activities of Japanese Society of Pediatric Surgeons for Tohoku Earthquake and Tsunami Support
Chief of Committee of Survey for Pediatric Emergencies of the Japanese Society of Pediatric Surgeons
Takeo Yonekura

12:00~13:00

Luncheon Seminar 6

PM

13:00~13:15

Report from the Review Committee for Work-life Balance

A report of the questionnaire about the work life balance of pediatric surgeons

Committee of Work Life Balance, Japanese Society of Pediatric Surgeons
Saori Nakahara

15:00~15:45

Oral Session 5 Problems in adult survivors

Moderator Kazuo Ishida (Japanese Red Cross Medical Center)

- O5-1 Long-term Outcome of Patients with Esophageal Atresia in a Single Institution
Department of Pediatric Surgery, Chiba University Hospital
Takeshi Saito
- O5-2 Long-term clinical outcome of esophageal atresia beyond childhood
Department of Surgery, Kanagawa Children's Medical Center
Kyoko Mochizuki

- O5-3 The problem of the congenital diaphragmatic hernia which reached at adolescence and adulthood
Dept. of Pediatric Surgery, Osaka Medical Center and Research Institute for Maternal and Child Health
Yuko Tazuke
- O5-4 The outcome of living donor liver transplantation for adult biliary atresia
Department of Pediatric Surgery, Reproductive and Developmental Medicine, Kyushu University
Makoto Hayashida
- O5-5 Problems in adult patients after pediatric liver transplant
Transplantation/Pediatric Surgery, Kumamoto University
Kwang-Jong Lee

15:45~16:50

Oral Session 6 Respiratory Moderator Shigeru Takamizawa (Nagano Children's Hospital)

- O6-1 Revisiting the histological classification of congenital cystic adenomatoid malformation
Division of Diagnostic Pathology, Kanagawa Children's Medical Center
Mio Tanaka
- O6-2 Classification of congenital cystic lung disease from the aspect of bronchial atresia
Department of Surgery, Tokyo Metropolitan Children's Medical Center
Koji Komori
- O6-3 Extended partial cricotracheal resection for pediatric severe subglottic stenosis Takatsuki General Hospital
Jiro Tsugawa
- O6-4 External stabilization of severe tracheobronchomalacia: a report of 5 cases
Department of Pediatric Surgery, Saitama Children's Medical Center
Shinya Takazawa
- O6-5 Laryngotracheal separation using skin flap formation: complications and measures
Department of Pediatric Surgery, Shizuoka Children's Hospital
Koji Fukumoto
- O6-6 Relationship between O/E LHR and L/T ratio in the fetuses with congenital diaphragmatic hernia
Department of Pediatric Surgery, Osaka University Graduate School of Medicine
Noriaki Usui
- O6-7 Chest deformity after congenital diaphragmatic hernia repair
Department of Pediatric Surgery, Nagoya University Graduate School of Medicine
Satoshi Makita
- O6-8 Outcome of the congenital diaphragmatic hernia patients with being candidates for Fontan operation
Osaka Medical Center And Research Institute For Maternal And Child Health
Nobuko Shiono

17:00~17:30

Closing Remarks

Room 3 (Nishiki)

AM

7:30~8:30

Morning Seminar 2

8:30~9:20

Oral Session 7 Hepato-biliary

Moderator Jun Fujishiro (The University of Tokyo)

- 07-1 Development of a novel scoring system for native liver fibrosis in biliary atresia
Department of Pediatric Surgery, Keio University School of Medicine
Hirofumi Tomita
- 07-2 Changes in liver fibrosis in biliary atresia with long-term native liver survival
Department of Pediatric Surgery, Keio University School of Medicine
Hirofumi Tomita
- 07-3 Clinical analysis of liver fibrosis in choledochal cyst
Department of Pediatric Surgery, Kyoto Prefectural University of Medicine
Shigehisa Fumino
- 07-4 Study of secondary pulmonary perfusion abnormality in postoperative biliary atresia
Department of Pediatric Surgery, Tohoku University School of Medicine
Atsushi Okamura
- 07-5 The Postnatal Management of Prenatally Diagnosed Choledochal Cyst
Division of Pediatric Surgery, Tohoku University Hospital
Hiromu Tanaka
- 07-6 Surfactant protein D in the liver of infantile cholestasis
Department of Pediatric Surgery, Hyogo College of Medicine
Ryuta Saka

9:20~10:15

Video Session 1

Moderators Naoto Urushihara (Shizuoka Children's Hospital)
Masahito Sato (Kitano Hospital)

- V1-1 A low-birth-weight newborn undergoing slide tracheoplasty for congenital tracheal stenosis
Department of Pediatric Surgery, Shizuoka Children's Hospital
Keiichi Morita
- V1-2 Thoracoscopic Diaphragmatic Eventration Repair In Infants About Two Cases
Department of Pediatric Surgery, Kyoto Prefectural University of Medicine
Junko Wakao
- V1-3 Pancreatoduodenectomy in a girl with recurrent pancreatitis due to the annular pancreas
Department of Pediatric Surgery, Hyogo College of Medicine
Hiromi Okuyama
- V1-4 Laparoscopic partial nephrectomy for multilocular cystic renal tumor
Department of Pediatric Surgery, Saitama Children's Medical Center
Yujiro Tanaka
- V1-5 Laparoscopic Nissen fundoplication with ePTFE mesh hiatoplasty in severe retarded children
Department of Pediatric Surgery, Saitama Children's Medical Center
Takayuki Masuko
- V1-6 Preventive Operation of Complication for Intractable Aspiration Pneumonia
Pediatric Surgery, Fukushima Medical University
Kazuya Ise

10:15~11:00

Video Session 2

Moderators Kouji Masumoto (University of Tsukuba)
Hiroki Ishibashi (Tokushima University)

- V2-1 laryngotracheoesophageal cleft associated with multiple anomaly
Osaka Medical Center and Research Institute for Maternal and Child Health
Gakuto Tani
- V2-2 Thoracoscopic repair of H-type tracheoesophageal fistula Pediatric Surgery, Shizuoka Children's Hospital
Naoto Urushihara
- V2-3 Thoracoscopic segmentectomy for pediatric cystic lung diseases Dept of Pediatr Surg Nagoya Univ.
Kenitiro Kaneko
- V2-4 Laparoscopic Duhamel's procedure Pediatric Surgery, Fujita Health University
Takazumi Kato
- V2-5 Usefulness of cholangioscopy in the laparoscopic resecton of fusiform biliary dilatation
Department of Pediatric Surgery, Ibaraki Children's Hospital
Toshihiro Yanai

11:00~11:55

Oral Session 8 Pediatric endosurgery

Moderators Makoto Yagi (Kinki University)
Hirotugu Terakura (Japanese Red Cross Kumamoto Hospital)

- O8-1 Treatment of appendicitis with abscess: From the experience of emergency laparoscopic appendectomy
Department of Surgery, Kitasato University
Kiyoshi Tanaka
- O8-2 Laparoscopic surgery in child: laparoscopic appendectomy for perforated appendicitis
Depart. of Pediatric Surgery, Nagano Red Cross Hospital
Shuuichirou Kitahara
- O8-3 Laparoscopic surgery for pediatric abdominoscrotal hydrocele
Pediatric and Pediatric Endoscopic Surgery, Tokushima Universal Hospital
Hiroki Ishibashi
- O8-4 Clinical investigation of laparoscopic surgery for NPT. Problems and prospects
Saitama Childrens Medical Center Urology
Minoru Tada
- O8-5 Thoracoscopic treatment of a recurrent tracheoesophageal fistula after primary thoracoscopic repair
Department of Pediatric Surgery, Saitama Children's Medical Center
Kyoichi Deie
- O8-6 Re-Nuss procedure technique to pectus excavatum
Department of Surgery, Jikei University School of Medicine
Shuichi Ashizuka

PM

13:00~13:35

Oral Session 9 Anorectal

Moderator Seiichi Hirobe (Tokyo Metropolitan Children's Medical Center)

- O9-1 Surgical approaches for postoperative complications of anorectal malformation
Department of Surgery, Keio University School of Medicine
Takahiro Shimizu

- 09-2 Adequate diagnostic modalities for decision-making of colostomy in anorectal malformations
Ibaraki Children's Hospital
Satoshi Matsuda
- 09-3 Urological Evaluation of Infants with Anorectal Malformation
Department of Urology and Kidney Transplantation, Tokyo Metropolitan Children's Medical Center
Sachiko Sakai
- 09-4 The types of cloacal exstrophy
Department of Surgery, Kobe Children's Hospital
Akiko Yokoi
- 14:00~15:00
Afternoon Seminar 2
- 15:00~15:40
Oral Session 10 Oncology
Moderator Akihiro Yoneda (Osaka Medical Center and Research Institute for Maternal and Child Health)
- 010-1 The perioperative and late complications of postnatal surgery in sacrococcygeal teratomas
Department of Pediatric Surgery, Graduate School of Medical Sciences, Kyushu University
Ryota Souzaki
- 010-2 Relationship between Histology and Clinical Features of Prenatally Diagnosed Sacrococcygeal Teratoma
Osaka Medical Center and Research Institute for Maternal and Child Health
Akihiro Yoneda
- 010-3 Pediatric sacrococcygeal germ cell tumors: yolk sac tumors after teratoma and mixed germ cell tumors
Kanagawa Children's Medical Center
Mariko Yoshida
- 010-4 Anti-tumor Effects of PYRROLE-IMIDAZOLE POLYAMIDE(PIP) Targeting *LIT1* Gene
Pediatric Surgery, Nihon University School of Medicine
Shinsuke Yoshizawa
- 010-5 Target capture of epigenetic regulation genes by next-generation sequencing in neuroblastoma
Dept. of Pediatric Surgery, The University of Tokyo
Noriko Hoshino
- 15:40~16:20
Oral Session 11 Gastrointestinal 2
Moderator Keiichi Uchida (Mie University)
- 011-1 Neurodevelopmental outcomes of very-low-birth-weight infants with intestinal perforation
Department of Pediatric Surgery, Saitama Children's Medical Center
Yujiro Tanaka
- 011-2 Pathological Evaluation of Variant Hirschsprung's Disease Using Immunohistochemistry
National Center for Child Health and Development Pathology
Masahiro Hatanaka
- 011-3 Study about Segmental dilatation of the sigmoid colon ~The judgment with Hirschsprung disease
Department of Gastroenterology, Tokyo Metropolitan Children's Medical Center
Nao Tachibana
- 011-4 Cases of Hirschsprung's disease diagnosed after 1-year-old
Department of Pediatric Surgery, Kobe Children's Hospital
Makoto Nakao

O11-5 Examination of the usefulness of CT colonography for the bowel movement bleeding

Department of Pediatric Surgery, Kagawa University
Hiroyuki Kubo

Poster Room (Hana)

PM

13:30~13:55

Poster Session 37 Benign tumor 1

Misako Hirai (Ibaraki Children's Hospital)

P37-1 A case of disseminated juvenile xanthogranuloma suspected of primary lung tumor

Department of Pediatric Surgery, Osaka City General Hospital
Masaki Horiike

P37-2 A case of plumonary inflammatory myofibroblastic tumor

Dept. of Surgery, Nara Medical University
Hiromichi Kanehiro

P37-3 Successful Treatment of Bulky Mediastinal Lipoblastoma With Cervical Approach About Two Cases

Department of Pediatric Surgery, Kyoto Prefectural University of Medicine
Yuki Sasaguri

P37-4 A case of intra-abdominal free tumor. -Inflammatory myofibroblastic tumor-

First Department of Surgery, Dokkyo Medical University
Yukiko Tani

P37-5 a case of splenic angiomyolipoma in a child

Ibaraki Pediatric Hospital
Sorahiko Fujisawa

13:55~14:20

Poster Session 38 Benign tumor 2

Kiminobu Sugito (Nihon University)

P38-1 Two cases of Tuberous Sclerosis associated with giant subcutaneous tumor at the abdominal wall

Department of Pediatric Surgery, Osaka University Graduate School of Medicine
Masahiro Zenitani

P38-2 Subcutaneous Bronchogenic Cyst: Report of 5 cases and review of literature

Department of Pediatric Surgery, Hirakata Hospital, Kansai Medical University
Tatsuma Sakaguchi

P38-3 Two cases of the prepuce tumor in childhood

Department of Pediatric Surgery, Kameda Medical Center
Yoshinobu Koike

P38-4 Subcutaneous masses in infants and children

Department of Pediatric Surgery, Dokkyo Medical University Koshigaya Hospital
Mariko Aoki

P38-5 The effect of partial adrenalectomy for bilateral adrenal pheochromocytoma: A case report

Department of Pediatric Surgery, University of Tsukuba
Takato Sasaki

14:20~15:00

Poster Session 39 Lymphatic malformations/miscellaneous

Akihiro Fujino (Keio University)

P39-1 A neonatal case of Kaposiform hemangioendothelioma arising from ascending colon and retroperitoneum

Department of Pediatric Surgery, Kitakyushu Municipal Medical Center
Kyosuke Tatsuta

- P39-2 Lymphangioma of the Falciform Ligament
Division of Pediatric Surgery, Ogaki Municipal Hospital
Kazuo Oshima
- P39-3 Abdominoscrotal lymphangioma: A case report
Department of Pediatric Surgery, Kakogawa West City Hospital
Masao Yasufuku
- P39-4 Clinical Approach and Treatment of abdominal lymphangioma. Report of 5 cases
The Pediatric Surgical Services, Showa University School of Medicine
Shunsuke Osawa
- P39-5 Laser cauterization to the intractable lesion after surgery for a huge cavernous lymphangioma
Hernia Surgical Center, Okinawa Heart-Life Hospital
Hiroo Takehara
- P39-6 A case of lymphangioma treated by Kampo Medicine
Department of Pediatric Surgery, National Hospital Organization, Kokura Medical Center
Kumiko Shono
- P39-7 3 cases of cystic lymphangioma treated adjunctive therapy with eppikajyututou
Pediatric Surgery of St. Mary's Hospital
Hiroaki Tanaka
- 13:30~13:55
Poster Session 40 Colon 1
Ryuichi Shimono (Kagawa University)
- P40-1 Infliximab therapy following ileocolonic resection for Crohn's disease in pediatric patients
Department of Gastrointestinal and Pediatric Surgery, Mie University Graduate School of Medicine
Mikihiro Inoue
- P40-2 A Clinical Analysis for Surgery of Ulcerative Colitis in Children
Department of Surgery, Tokyo Metropolitan Children's Medical Center
Mototoshi Kato
- P40-3 A case of cecal volvulus in a child who had no underlying disease
Department of Pediatric Surgery, Faculty of Medicine, University of Tsukuba
Toru Uesugi
- P40-4 A case of strangulated ileus of descending colon in incomplete fixation
Pediatric Surgery, Uji Tokushukai Hospital
Hideki Tomiyama
- P40-5 A boy of severe constipation treated by TANKO-assisted resection of redundant sigmoid colon
Department of Pediatric Surgery, Hyogo College of Medicine
Chizu Yoneyama
- 13:55~14:25
Poster Session 41 Colon 2 (Hirschsprung's disease)
Yoshio Watanabe (Aichi Children's Health and Medical Center)
- P41-1 A case of Segmental Dilatation of the sigmoid colon
Division of Pediatric Surgery, Department of Surgery, Showa University School of Medicine
Aya Tanaka
- P41-2 A case of congenital choride diarrhea
Dept of Pediatric of Surgery, Anjo Kosei Hospital
Akihide Tanano

- P41-3 Drug-resistant bacteria in the pediatric surgery patients –a report from one institute–
Department of Pediatric Surgery Ehime Prefectural Central Hospital
Katsumi Muramori
- P41-4 Analysis of the amount of jejunostomy or ileostomy discharge in cases of Allied Hirschsprung's disease
Department of Pediatric Surgery, Keio University School of Medicine
Hideo Ishihama
- P41-5 An experience of malrotation of intestine with Hirschsprung's disease
Department of Surgery, National Defense Medical College Hospital
Daiki Kitagawa
- P41-6 Changes in the treatment for Hirschsprung's disease and assessment of postoperative bowel function
Department of Pediatric Surgery, Fujita Health University School of Medicine
Fujio Hara

14:25~15:00

Poster Session 42 Thorax 4 (congenital diaphragmatic hernia)

Tadaharu Okazaki (Juntendo University Urayasu Hospital)

- P42-1 New severity index for fatal congenital diaphragmatic hernia
Department of Pediatric Surgery, Shizuoka Children's Hospital
Masaya Yamoto
- P42-2 Profiles of cases with congenital diaphragmatic hernia which meet the condition for "TOTAL trial"
Department of Pediatric Surgery, Matsudo City Hospital Children's Medical Center
Keita Terui
- P42-3 the timing of surgery for congenital diaphragmatic hernia Department of Surgery, Kobe Children's Hospital
Insu Kawahara
- P42-4 The way to improve the morbidity and the mortality of congenital diaphragmatic hernia
Department of Pediatric Surgery, Faculty of Medicine, University of Tsukuba
Hajime Takayasu
- P42-5 Prenatally diagnosed congenital diaphragmatic hernia
Department of Pediatric Surgery, Hiroshima City Hospital
Reisuke Imaji
- P42-6 The multicenter collaborative trial related to the Japanese CDH Study Group
Department of Pediatric Surgery, Graduate School of Medical Sciences, Kyushu University
Kouji Nagata
- P42-7 Video-assisted thoracic surgery for Bochdalek hernia Pediatric Surgery, Takatsuki Hp
Yuichiro Tomioka

13:30~13:55

Poster Session 43 Anorectal 1

Jun Iwai (Chiba Children's Hospital)

- P43-1 A Case of Imperforated anus with Multiple Malformations of Intestine in A Male Newborn
Neonatal Intensive Care Unit, Fukuda Hospital
Seiro Machigashira
- P43-2 Within 20 hours after birth, bowel perforation in a neonate with anorectal malformation
Department of Pediatric Surgery, Ohmihachiman Community Medical Center
Tomoki Tsuda
- P43-3 Anorectal malformation coexisting congenital colonic stenosis: A Case report
Pediatric Surgery, Kakogawa West City Hospital
Yousuke Aida

P43-4 Prenatally diagnosed omphalocele associated with multiple anomalies
 Department of Pediatric Surgery, Saitama Medical University
 Ryosuke Satake

P43-5 Urinary retention after the laparoscopic operation for the recto-urethral fistula
 General Thoracic, Breast, Pediatric Surgery, Fukuoka University
 Ryuichiro Hirose

13:55~14:30

Poster Session 44 Anorectal 2

Yasushi Fuchimoto (National Center for Child Health and Development)

P44-1 Anal can preserving surgery for rectal atresia: A case report
 Division of Pediatric Surgery, Okinawa Chube Hospital
 Yoshimitsu Fukuzato

P44-2 Strategy for Cloacal malformation with peritonitis
 Division of Pediatric Surgery, Kansai Medical University Hirakata Hospital
 Kohei Takada

P44-3 A case of rectal cancer after repair for rectourethral fistula
 Department of Pediatric Surgery, Nihon University School of Medicine
 Taro Ikeda

P44-4 Y-shaped Tubular Duplication of the Rectum in a Newborn: Report of A Case and Literature Review
 Department of Pediatric General & Urogenital Surgery, Juntendo University School of Medicine
 Soichi Shibuya

P44-5 The effect of daisaikoto to chronic constipation and other defecation disorders in children
 Pediatric Surgery, Niigata University Graduate School
 Toshiyuki Ohyama

P44-6 Therapy for Chronic Functional Constipation of children Pediatric Surgery, Nagasaki University Hospital
 Taiichiro Kosaka

P44-7 Two pediatric hemorrhoids cases treated with sclerosing therapy using ALTA
 Department of Pediatric Surgery, Kusatu General Hospital
 Shinichi Shimadera

14:30~15:00

Poster Session 45 Pediatric urology 2

Masahiko Urao (Juntendo University Nerima Hospital)

P45-1 A case of the simple renal cyst gradually increased after birth
 Fukuyama Medical Hospital
 Hiroaki Yamanaka

P45-2 Deflux injection surgery to the cases diagnosed as VUR with PIC cystogram
 Division fo Urology, Shizuoka Children's Hospital
 Hideki Kawamura

P45-3 10 cases of female distal urethral stenosis
 Division of Pediatric Surgery, Medical Center East, Tokyo Women's Medical University
 Masayoshi Tsuchiya

P45-4 Therapy of 15 cases of urachal sinus
 Rinku General Medical Center
 Tasuku Kodama

P45-5 A infant case of percutaneous cystolithectomy
 Yodogawa Christian Hospital
 Taku Yamamichi

P45-6 Urethral Caruncle in a child: case report and literature review
Division of Pediatric Surgery, Department of Surgery, Showa University School of Medicine
Masahiro Chiba

13:30~14:05

Poster Session 46 Hepato-biliary 2 (choledochal cyst) Tatsuya Suzuki (Fujita Health University)

P46-1 Prenatally detected congenital biliary dilatation: a case report
Division of Pediatric and Transplant Surgery, Nagoya City University Hospital
Daisuke Takagi

P46-2 A case report of congenital biliary dilatation treated by hepatojejunostomy
Department of Pediatric Surgery Izumiotsu Municipal Hospital
Hiroaki Hayashi

P46-3 A case of congenital dilatation of bile duct with non-cholestatic liver cirrhosis
Department of Surgery, Nagano Children's Hospital
Katsumi Yoshizawa

P46-4 High Confluence of Pancreaticobiliary Ducts-associated Recurrent Hyperamylasemia: A Case Report
Department of Pediatric Surgery, Dokkyo Medical University Koshigaya Hospital
Kazunori Tahara

P46-5 A case of 6-year-old girl with congenital biliary dilatation treated with endoscopic biliary stent
Department of Pediatric Surgery, Japanese Red Cross Medical Center
Shohei Takami

P46-6 A Case of Spontaneous perforation of the Gallbladder with Congenital Biliary Dilatation
Department of Regenerative Surgery, Fukushima Medical University
Kei Nakayama

P46-7 Congenital biliary dilation with bile duct perforation: A report of 3 cases
Division of Pediatric Surgery Department of Surgery Kinki University School of Medicine
Koki Kimura

14:05~14:40

Poster Session 47 Hepato-biliary 3 (choledochal cyst/miscellaneous)
Tetsuo Hori (Tsuchiura Kyodo General Hospital)

P47-1 A case of double-balloon enteroscopic treatment for stenosis of Roux-en-Y hepaticojejunostomy
Department of Surgery, Miyagi Children's Hospital
Takuro Kazama

P47-2 Efficacy of double-balloon enteroscopy for intrahepatic bile duct stones after hepaticojejunostomy
Division of Pediatric Surgery, Department of Surgery, Jichi Medical University
Shigeru Ono

P47-3 Hepaticolithiasis requiring treatment in postoperative congenital biliary dilatation -2 cases-
Oita University Surgery 1
Manabu Tojigamori

P47-4 choledocholithiasis in an infant
Pediatric Surgery, Kagoshima City Hospital
Makoto Matukubo

P47-5 Three cases of pancreatitis without pancreaticobiliary maljunction
Department of Surgery, Gunma Children's Medical Hospital
Fumiaki Toki

P47-6 A case of cholecystohepatic duct treated with laparoscopic subtotal cholecystectomy
Department of Pediatric Surgery, Fukuoka Children's Hospital
Naonori Kawakubo

P47-7 Minimum umbilical approach for the operation of biliary dilatation in children
Department of Pediatric Surgery, Ibaraki Children's Hospital
Toshihiro Yanai

13:30~14:00

Poster Session 48 Animal models in pediatric surgical research
Takaki Emura (Yamagata Prefectural Central Hospital)

P48-1 A Study on the Rats Models of Congenital Diaphragmatic Hernia Induced by Nirtofen
Department of Pediatric Surgery, Hirosaki University School of Medicine
Tamotsu Kobayashi

P48-2 A rabbit model for tracheal stenosis
Division of Surgical Oncology, Department of Translational Medical Science, Nagasaki University Graduate School of Biomedical Sciences
Yasuaki Taura

P48-3 Lactate Levels in Bowel Strangulation With Experimental Animal Model
Department of Surgery, The Jikei University School of Medicine
Keiichiro Tanaka

P48-5 Significance and problem in a surrogate model of pancreaticobiliary maljunction in rats
Department of Pediatric and Pediatric Endoscopic Surgery, The University of Tokushima
Hiroki Mori

P48-6 The effects of anesthesia and fetal surgery on the early ovine fetal kidney
Department of Pediatric Surgery, St. Marianna University School of Medicine, Kawasaki, Japan
Shutaro Manabe

14:00~14:45

Poster Session 49 Multidisciplinary team/Health-care systems in pediatric surgery
Akira Nishi (Gunma Children's Medical Center)

P49-1 Cooperative treatment of spina bifida by pediatric surgeons and other medical professions
Department of Pediatric Surgery, Dokkyo Medical University Koshigaya Hospital
Yuki Ishimaru

P49-2 Objective evaluation for the management of postoperative pain in Nuss procedure
Dept. of Pediatric Surgery, Kawasaki Medical School
Atsushi Yoshida

P49-3 Stoma care of low birth weight infants with respect to interprofessional education and work
Department of Medical Education, Graduate School of Medical and Pharmaceutical Sciences, University of Toyama
Shinichiro Hirokawa

P49-4 Altered strategy of noncardiac surgical disease in neonates with congenital heart defects
Kanagawa Children's Medical Center
Etsuko Osawa

P49-5 SSI surveillance in our hospital
Department of Pediatric Surgery, Shizuoka Children's Hospital
Hiromu Miyake

- P49-6 Pediatric surgery training in the general hospital with department of pediatric surgery
Department of Pediatric Surgery, Japanese Kumamoto Red Cross Hospital
Seiichi Kawabata
- P49-7 Our Intention to the Pediatric Surgeon Upbringing Program
NHO Okayama Medical Center
Takafumi Goto
- P49-8 international cooperation of pediatric surgery
Department of Pediatric Surgery, Showa University Northern Yokohama Hospital
Yu Watarai
- P49-9 Cost accounting in pediatric surgery
Pediatric Surgery, St. Marianna University School of Medicine
Hirokazu Kawase
- 13:30~14:00
Poster Session 50 Thorax 1 (cystic lung disease) Kenitiro Kaneko (Nagoya University)
- P50-1 A study on CCAM cases with the prenatal diagnosis of abnormalities before birth
Department of Pediatric Surgery Nagasaki University Hospital
Yusuke Yamane
- P50-2 Thoracoscopic left S9+10 lung segmentectomy for pediatric intralobar pulmonary sequestration
Department of Surgery II, Faculty of Medicine, Yamagata University
Hiroshi Ohta
- P50-3 Successful anterior thoracotomy approach for neonatal large CCAM: a case report
Pediatric Surgery, Kumamoto City Hospital
Masataka Sakisaka
- P50-4 Two cases of congenital cystic lung disease
National Center for Child Health and Development
Kaori Sato
- P50-5 A case of extralobar pulmonary sequestration with torsion presenting acute abdomen
Fukuoka Children's Hospital
Shidu Miura
- P50-6 A case of bilateral pulmonary sequestration
Department of Pediatric Surgery, Hyogo Prefectural Tsukaguchi Hospital
Kentaro Watanabe
- 14:00~14:35
Poster Session 51 Thorax 2 (respiratory tract) Yuko Bitoh (Kobe Children's Hospital)
- P51-1 A case of tracheal compression rescued by sternal resection and innominate artery transection
Department of Pediatric Surgery, Hiroshima City Hospital
Reisuke Imaji
- P51-2 Prophylactic Dissection of the Brachiocephalic Artery
Pediatric Surgery, Aichi Prefectural Colony
Shuichi Tanaka
- P51-3 Laryngotracheal Separation for Type 4 Laryngo-Tracheo-Esophageal Cleft with esophageal atresia
Department of Pediatric Surgery, Kanazawa Medical University
Yoshitomo Yasui
- P51-4 Considerations of ECMO case of postoperative congenital tracheal stenosis
Surgery, Tokyo Metropolitan Children's Medical Center
Keiichi Uto
- P51-5 4 case of sliding tracheoplasty for tracheal stenosis at Shizuoka Children's Hospital
Shizuoka Children's Hospital
Masakatsu Kaneshiro

P51-6 Early and long-term outcome after tracheostomy in NICU Kawaguchi Municipal Medical Center
Masashi Kurobe

P51-7 Strategy for closure of the tracheotomy in children with severe disorder on upper respiratory tract
Department of Pediatric Surgery, Ibaraki Children's Hospital
Misako Hirai

14:35~15:00

Poster Session 52 Thorax 3 (congenital diaphragmatic hernia/miscellaneous)

Kazunori Tahara (Dokkyo Medical University Koshigaya Hospital)

P52-1 Two Cases of Mucormycosis treated with surgical resection
Department of Pediatric Surgery, Nihon University School of Medicine
Takayuki Hirano

P52-2 A case report of refractory chylothorax treated with Surgical ligation of Cisterna Chyli
Pediatric Surgery, Kyushu University Hospital
Takuya Kondo

P52-3 Assessment of patients with gastrointestinal anomaly complicated by congenital cardiac anomaly
Department of Surgery and Science, University of Toyama
Tomoko Watanabe

P52-4 Reconstruction for Recurrent Congenital Diaphragmatic Hernia by the abdominal muscle flap
Department of Pediatric Surgery, Kanazawa Medical University
Yoshitomo Yasui

P52-5 A case of CDH who vomited a GORE-TEX sheet used for diaphragm repair Kochi Health Sciences Center
Kiyoshi Sasaki

13:30~14:05

Poster Session 53 Appendix 1 Akio Odaka (Saitama Medical Center, Saitama Medical University)

P53-1 Surgical strategy for acute appendicitis –Do we need emergency surgery at night?–
Tokyo Metropolitan Children's Medical Center
Go Ohba

P53-2 Management of Acute Appendicitis in children with Febrile Neutropenia During Chemotherapy
Department of Pediatric Surgery, Kyoto Prefectural University of Medicine
Kouseki Kimura

P53-3 Comparison of fecaloma between diverticulitis and appendicitis
First Department of Surgery, Dokkyo Medical University
Takeshi Yamaguchi

P53-4 Study of risk factors associated with the acute appendicitis complications
Pediatric Surgery, St Marianna University School of Medicine
Kei Ohyama

P53-5 A Case of Infantile Appendicitis with Acquired Colonic Stricture
Pediatric Surgery, Kyoto University Hospital
Eri Ogawa

P53-6 A case of Amyand's hernia that caused the incarcerated in the neonatal period
Division of Pediatric Surgery, Prefectural Okinawa Nanbu Medical Center and Children's Medical Center
Kiyotetsu Oshiro

P53-7 Two cases of acute appendicitis that remarkable adhesion remained in at the interval appendectomy
Department of Pediatric Surgery of Showa University Northern Yokohama Hospital
Yusuke Ohashi

14:05~14:45

Poster Session 54 Appendix 2

Yujiro Tanaka (Saitama Children's Medical Center)

- P54-1 Postoperative residual abscess of acute appendicitis
Department of Pediatric Surgery, Akita Kumiai General Hospital
Chiaki Hatazawa
- P54-2 Interval appendectomy for acute appendicitis with an appendiceal mass in children
Division of Pediatric Surgery Department of Surgery Kinki University School of Medicine
Shohei Maekawa
- P54-3 conservative management for acute appendicitis of pediatrics Pediatric Surgery, Jichi Medical University
Katsuhisa Baba
- P54-4 Usefulness, safety and cost-effectiveness of transumbilical laparoscopic-assisted appendectomy
Department of Pediatric Surgery, Saitama Children's Medical Center
Kyoichi Deie
- P54-5 A Study of Abdominal-wall Lifting Single Incision Laparoscopic Appendectomy in Children
Department of Pediatric Surgery, Saga Prefetural Hospital Koseikan
Shohei Taguchi
- P54-6 Treatment of acute appendicitis in children Department of Pediatric Surgery, Dokkyo Medical University
Junko Fujino
- P54-7 Reduced Port Surgery to introduce to a young doctor safely in laparoscopic appendectomy
Pediatric Surgery of Hyogo Prefetural Tsukaguchi Hospital
Tesuo Katayama
- P54-8 Postoperative sigmoid colon stenosis in a case of perforated appendicitis
Department of Pediatric Surgery, Oita Prefetural Hospital
Noritoshi Handa

Poster Display 3

- DP-50 Change of operative procedure for pediatric inguinal hernia—Impact of LPEC—
Department of Pediatric Surgery, Kitakyushu Municipal Medical Center
Takeshi Yamanouchi
- DP-51 An ASH case in which common septum between PV and hydrocele had a small communication
Osaka Redcross Hospital, Pediatric Surgery
Yasuhiro Matsukawa
- DP-52 Two Cases of Anisakiasis Granuloma Found in Inguinal Hernia Surgery, Onomichi General Hospital
Masumi Kawashima
- DP-53 A prognosis of prenatal diagnosed congenital hydronephrosis at a single institution
Department of Pediatric Surgery, NHO Okayama Medical Center
Shuichi Katayama
- DP-54 The clinical implication of distal ureteral diameter/L1-L3 ratio in the VUR
Department of Pediatric Surgery, Graduate School of Medical Sciences, Kyushu University
Yoshiaki Kinoshita
- DP-55 Nine cases of ureterovesical junction stenosis in children
Division of Pediatric Surgery, Department of Surgery, Showa University School of Medicine
Noriyoshi Nakayama
- DP-56 The technical device in the procedure of endoscopic injection (Deflux) for VUR
Department of Pediatric Surgery, Graduate School of Medical Sciences, Kyushu University
Yoshiaki Kinoshita

- DP-57 Surgical indication of therapeutic strategy for infectious urachal remnants
Department of Pediatric Surgery Kagoshima University, Faculty of Medicine
Yoshihiro Hayashida
- DP-58 A Case of Transverse Testicular Ectopia
Pediatric Surgery, Nagasaki University Hospital
Taiichiro Kosaka
- DP-59 Neonatal testicular torsion at birth: A report of a case
Third Department of Surgery, Tokyo Medical University, Tokyo, Japan
Yutaka Hayashi
- DP-60 choledocal cyst with prenatal diagnosis
Support Center for Community Medicine, Kagoshima University Hospital
Hideo Takamatsu
- DP-61 Three cases of the congenital biliary dilatation which took various progress
Department of Pediatric Surgery, Himeji St. Mary's Hospital
Tomoya Takao
- DP-62 A case of I-b1- β type Biliary atresia with a fibrous cyst in common bile duct
Pediatric Surgery, Kurume University
Naoko Komatsuzaki
- DP-63 Single-site laparoscopic cholecystectomy for calcium carbonate gallstone in a child
Department of Pediatric Surgery, Nippon Medical School Musashikosugi Hospital
Tsubasa Takahashi
- DP-64 A case of bile leakage after liver resection for hepatoblastoma
Department of Pediatric Surgery, Kanazawa University Hospital
Seisho Sakai
- DP-65 Successful percutaneous transgastric drainage of a pancreatic pseudocyst after traumatic injury
Department of Pediatric Surgery, Osaka University Graduate School of Medicine
Kengo Nakahata
- DP-66 Vascular and biliary complications in pediatric living donor liver transplantation
Department of Pediatric Surgery, Nagoya University Graduate School of Medicine
Naruhiko Murase
- DP-67 Outcome of surgical treatment in low-birth-weight Infants
Department of Pediatric Surgery, Nihon University School of Medicine
Toshifumi Hosoda
- DP-68 A case of congenital hiatal hernia required operation in neonatal period
Second Department of Suregery, Wakayama Medical University
Yasuyuki Mitani
- DP-69 A Neonatal Case of Massive Hiatus Hernia
Department of Pediatric Surgery Kagawa Natinal Children's Hospital
Yu Ueno
- DP-70 A case of Congenital pyloric stenosis
Department of Surgery, Miyagi Children's Hospital
Takuro Kazama
- DP-71 Two cases of congenital duodenal stenosis operated recently
Pediatric Surgery, Ohta Nishinouchi Hospital
Kimio Kondo
- DP-72 A case of nonrotation of the midgut in a neonate presenting duodenal stenosis
National Hospital Organization Okayama Medical Center
Takahiro Ohkura
- DP-73 A case of meconium peritonitis operated by intestinal anastomosis with pseudo-cyst resection
Department of Pediatric Surgery, Niigata Prefectural Central Hospital
Hiroki Murata

- DP-74 Conservative management for 13 trisomy patients with omphalocele and omphalomesentric fistula
Department of Surgery, Kanagawa Children's Medical Center
Masashi Minato
- DP-75 A Case of Solid-pseudopapillary Tumor of the Pancreas by Trauma
Department of Pediatric Surgery, Kurume University School of Medicine
Yoshinori Koga
- DP-76 A case of leiomyosarcoma in the subcutaneous tissue of the back
Department of Surgery, Nikko Memorial Hospital
Hiromi Hamada
- DP-77 Low-grade fibromyxoid sarcoma (Evans tumor): A report of 2 cases
Department of Pediatric Surgery, St Luke's Hospital
Takafumi Kawano
- DP-78 Delayed diagnosis of stage 4 neuroblastoma due to musculoskeletal symptoms: report of 2 cases
Department of Pediatric Surgical Oncology, National Cancer Center Hospital
Yuko Araki
- DP-79 A case of Wilms tumor with embolism in the right atrium Pediatric Surgery, Kansai Medical University
Yusuke Nakamura
- DP-80 Malignant rhabdoid tumor of the liver. A case report advanced quickly and resulted in death
Department of Pediatric Surgery, Chiba University School of Medicine
Shugo Komatsu
- DP-81 A report of four pediatric cases with adrenocortical tumor in our center
National Center for Child Health and Development
Koji Yamada
- DP-82 A case of cervical ectopic thymus presenting a problem in differentiating from malignant tumor
Department of Pediatric Surgery, Ishikawa Medical Center for Maternal and Child Health, Ishikawa Prefectural Central Hospital
Taichi Hirotsani
- DP-83 Coagulation and fibrinolytic molecular markers in patients with vascular malformations
Department of Pediatric Surgery, Fujita Health University
Masahito Hibi
- DP-84 Two cases of giant retroperitoneal teratoma in infant
Department of Pediatric Surgery, Graduate School of Medical Sciences, Kyushu University
Keiko Furusawa
- DP-85 The examination of the teratoma cases in our institution Japanese Red Cross Kumamoto Hospital
Hiromi Koyama
- DP-86 Two cases of ovarian borderline tumor diagnosed after laparoscopic surgery
Department of Pediatric Surgery, Kitano Hospital, The Tazuke Kofukai Medical Research Institute
Kengo Hattori
- DP-87 Standardization of SILS –Usefulness of the 2mm forceps in Reduced Port Surgery–
Dokkyo Medical University Koshigaya Hospital
Makoto Suzuki
- DP-88 Usefulness of the operation abdominal cavity outside from umbilical-region incision with laparoscope
Department of Pediatric Surgery, Gunma University
Sayaka Otake
- DP-89 Laparoscopic adhesiolysis for mechanical bowel obstruction after abdominal surgery
Department of Pediatric Surgery, Faculty of Medicine, University of Tsukuba
Chikashi Gotoh
- DP-90 Liver manipulation technique for laparoscopic surgery
Department of Pediatric Surgery Nagasaki University Hospital
Yusuke Yamane

- DP-91 Epidemiology and Surgical treatment of Neonatal surgical cases associated with Chromosomal anomaly
Department of Pediatric surgery, Niigata University
Kanao Sato
- DP-92 A clinical study on pediatric patients surgically intervened with chromosomal abnormalities
Pediatric Surgery, Fukuoka Children's Hospital
Yoshio Zaizen
- DP-93 A relation of the pediatric surgeon for the 18-trisomy cases
Division of Pediatric Surgery, St. Marianna University School of Medicine
Munehika Wakisaka
